

40-122L

COMPRESSOR MOUNT

BIG BLOCK CHEVY
LONG WATER PUMP
DRIVER SIDE - WIDE MOUNT

NOTE: Some heads have 3/8" bolt holes and some have 7/16". This kit includes both sizes of bolts for these holes.

If your head has 7/16" it will be necessary to enlarge the corresponding holes in the mount to 7/16".

When installing the mount, start all bolts and mount the compressor before tightening.

We use a belt length of 58 1/2 to 59 1/2 with this mount in our shop.

As with any part of this nature, make sure it fits your application before painting or plating. Parts that have been painted, plated, or modified may not be returned.
